### **DETAILED ACTION**

Claims 17-24, 56 and 57 are pending in the application.

Claim 54 was cancelled by Applicants in the Amendment filed on 12/18/01. Claims 1-16, 25-53 and 55 were canceled by Applicants in the Amendment filed on 12/31/02.

#### ***Election/Restrictions***

In response to the restriction requirement, Applicants elected Group III, claims 17-24 for examination. However, Applicants did not elect a specific SEQ ID for examination. The newly added claim 57 recites SEQ ID NO:1-22. As discussed in the restriction requirement, these nucleic acids are of multiple inventions which are drawn to different and distinct sequences which do not render obvious each other and thus are patentably distinct. Applicants must elect one specific sequence to which the claims will be restricted. Note, this restriction to examination of a single sequence is due to the now very high and undue burden for examining more than one sequence which is caused by the continued exponential increase of size of the sequence databases to be searched for each sequence, resulting in a corresponding increase in computer search time and examiner time for reviewing the computer search results. Therefore, the limited resources of the Office no longer permit examination of more than one sequence in an application.
